About Me:

Hello, I am Jiad, a passionate, enthusiastic junior full-stack web developer. I love to develop web applications. My core skill is based on Javascript and I do most of the things using Javascript. I am determined to work hard to learn and develop my skills continuously.

Key Skills :

- Good Understanding On :
  HTML5, CSS3, Bootstrap5, JavaScript, JavaScript ES6+, ReactJs, ExpressJs
- Comfortable With :
  NodeJs, MongoDB, Material UI, React Bootstrap, React Router
- Familiar With :
  Firebase, Rest API, JWT, Stripe
- Tools I Love To Use:
  Git, Github, Axios, React Hook Form, Animate CSS, Figma, Heroku, VS Code, Netlify, Chrome Dev Tools, Adobe Illustrator, Linux (Ubuntu), Canva

Personal Projects :

- **Falcons Eye** : A Drone Sales And Services Website
  Live Website - Client Side Code - Server Side Code

  Technology Used : ReactJs, React Router, React Hook Form, ExpressJs, Animate CSS, MongoDB, Bootstrap5, Axios

  Project Overview :
  ▸ Products as well as details are loaded from MongoDB database using fetch.
  ▸ If a user is logged in user can order a drone smoothly, the user will experience a separate dashboard where he/she can manage orders, and also he will be able to add a review.
  ▸ Separate dashboard for admin functionalities if an admin is logged in.

- **Trip Tale** : A Travel Booking Website
  Live Website - Client Side Code - Server Side Code

  Technology Used : ReactJs, Firebase, ExpressJs, MongoDB, Bootstrap 5

  Project Overview :
  ▸ User can book a trip after login, using a simple dashboard user can cancel a booked trip.
  ▸ User can manage all the orders and also add a new trip to the trips list.
  ▸ Photo gallery using grid and milestones added in home page for smoothen UI.

- **Medi Care** : A Health Service Website
  Live Website - Source Code

  Technology Used : ReactJs, Firebase, Bootstrap 5, React Router, CSS3

  Project Overview :
  ▶ Integrated sample hospitality services for users using React SPA where a user can enjoy medical services with its details, the user will get a doctors list to be appointed to.
  ▶ Custom CSS variables functionalities added from online sources to improve UI.
  ▶ Responsiveness applied using bootstrap 5.
  ▶ Separate services list and doctors list to provide detailed information to a user.

Education :

- **National University of Bangladesh**
  Bachelor of Arts in English Language and Literature
  2015 – 2019

- **National University of Bangladesh**
  Master of Arts in English Language and Literature
  Study Ongoing

- **Open Source Society University**
  Computer Science
  2020 - Current

Languages :

- **Bengali** : I speak Bangla as my native language.
- **English** : I have a good command of communicative English. Both reading, writing, listening, and speaking. I consider it my second language.
- **Hindi** : It is one of the most spoken languages in the world and I love to speak in it.
